

Florida Garden Railway Society

Hi Everybody,

I know this is kind of short notice, but we have decided to host a very informal fun run train meet at our house on Friday July 4th.

I will be running battery and live steam trains and I encourage you to bring trains to run as well. There is a possibility that I will have some smaller electrified loops running, but no promises. So battery and live steam trains would be best. I have 6ft min radius (12ft min diameter).

This invitation is not just for you. These are all the email addresses I have. If you know of other train enthusiasts who would enjoy this event, please extend the invitation to them.

We will be providing drinks, some snacks and a salad. We ask that you bring several dollars so we can all pitch in and order some pizza.

We would like people to start arriving around 6:30 PM. You are welcome to stay and run trains as long as you like. Hopefully you all will be able to stay until it gets dark as the railroad and rest of the backyard is nicely lit.

Our address is: (See Map Below)
4981 Courtland Loop
Winter Springs, FL
32708

Please call to RSVP and we can help with directions if needed.

Once again, we would really like all of you to come and celebrate the holiday with us. This will also be the last train meet that we host before I go to college. So come on out have fun running trains!

Sincerely,
David, Kim, and Dave Wenrich
